COVID-19 NOTICE

The Government of Kenya informs the following as COVID-19 travel requirements;

1. In order to prevent the importation of new covid-19 variants, stringent measures have been rolled out that include; Digital system for verification of COVID-19 test results christened "Trusted Travel". Through this platform, airlines and Port Health Authorities are able to validate test results of travelers.

2. A person intending to travel to Kenya must visit an authorized laboratory in the country of departure for COVID-19 PCR test and acquire a Covid negative certificate. The traveler is required to visit www.africacds.org/trusted-travel for guidance on uploading the test results. (see the travel guide in this link https://www.rickshawtravels.com/newsletter/Documents/Travel_Guide _Simplified_Kenya_MOH_combined_version.pdf)

3. Upon arrival at the airport, travelers in the country are required to provide a digital COVID-19 certificate for validation. Airlines are encouraged to confirm traveler's compliance prior to boarding. Any traveler who will not have complied will not be cleared for entry into the country, and will be responsibility of the concerned airline.

4. Travelers are also required to submit their Travelers Health Surveillance form online through the "jitenge" platform prior to disembarking. Travelers can download the "jitenge" app on Google Play store or access the forms online by typing "Jitenge MOH" on any browser; or through the link bit.ly/covid19moh, and complete the online registration form. Upon registration into the platform, the traveler will be issued with a QR code that should be presented at the health desk upon arrival into the country. They are also expected to self-monitor and report daily on the same platform for fourteen (14) days while in Kenya.
